

14 June 2017

Time:

11 am

Duration:

+/- 20 minutes

Present:

- Assoc. Prof. James Gain
- Assoc. Prof. Deshendran Moodley
- Anna Borysova
- Shaheel Kooverjee
- Erin Versfeld

Excused:

None.

Summary

- The team performed their final project proposal presentation to their supervisors as well as the following members of the Computer Science Department:
 - Prof. Tommie Meyer
 - Prof. Rob Simmonds
- Overall, the proposal was well received by the department
- The following concerns were raised over the nature of the project:
 - As a relatively new device and path of research, there is concern that the Myo may require more work than the other devices
 - Following from this, the work division for the project may be uneven
 - Clarity over how the evaluation of the various algorithms will be conducted
 - The ethical nature of the study
 - How the frames for the Kinect will translate into the transitions between gestures

Next meeting:

19 June 2017, 10 am

Points of Action for next meeting:

- Work on the batch script
- Take on board the changes which need to be made to the proposal based on the feedback received
